Remote Teaching and Learning – Supporting Our Students

Dear Parents/Guardians,

Our school is working to provide the best possible support in the current circumstances and trying to reach out to our students as much as we can. We are using different methods of communication and trying to provide remote teaching and learning so that the students can continue with their learning journey with us.

We need your help by making sure to check and follow the indications being provided. There are different ways in which students can access learning material:

- Educational resources available on www.curriculum.gov.mt

The Ministry for Education and Employment has created a resource page on its curricular website www.curriculum.gov.mt where resources and material for each year group and each subject are being made available and freely accessible to all.

- Educators providing resources directly to their students

Educators are providing educational material and resources to their students. This is being done through either of the following means of communication:

- our School's website: www.stpaulsbayprimary.com
- our Facebook page: <https://www.facebook.com/stpaulsbayprimary/>
- on the Class ILearn Rooms
- through ClassConnect for Yr4-Yr6 on their tablets
- directly through the students' email addresses
- through MySchool: this video-tutorial helps students to connect:
https://youtu.be/NMEA8X2_LPA

I would like to take this occasion to sincerely thank all educators who will contribute through the above initiatives to support our students.

Thank you for your time and hope that you support your children so that they can continue their learning journey. By working together, I am sure that we can overcome this challenge.

Regards,

Mr. E. Fenech
Head of School
